## **'Infernal' Game Released for iPhone, iPod Touch**

*ZEN Studios brings ZEN Pinball: Inferno to Apple's popular handhelds*

ZEN Studios, "the masters of pinball simulations," along with Publisher X, have announced ZEN Pinball: Inferno for Apple's [iPhone](#) and [iPod touch](#). Fans of ZEN's Pinball: Rollercoaster are sure to love this reinvented pinball game with 3D environments and physics, according to the [iTunes](#) App Store.

"We've been working hard to deliver games that offer the highest possible pinball experience and ZEN Pinball: Inferno is no exception. This is a great addition to our growing line of impressive tables," said Zsolt Kigyossy, managing director of ZEN Studios. "With stunning graphics, five modes of gameplay and intuitive touch screen controls, ZEN Pinball: Inferno is sure to be the 'hottest' pinball game on the iPhone."

Main features of the game, according to the iTunes App Store description, include the above-mentioned full 3D environment and physics, and a hot-seat multiplayer mode. Game modes include:

- Dumpy's endurance, where players light up the rotating rhythm area to test Dumpy's endurance in a bumper-smacking game mode;
- Airdancer Multiball, a game mode where you blow up the party puppet with the spinner, and get the stage-rocking Airdancer multiball;
- Backstage Multiball, where you will need to prove your party skills in the whirling Headbang arena, and then hide the balls backstage to start the marvelous Backstage Multiball;
- Extra ball - just keep shooting bumpers until you get an Extra Ball (a hundred hits required);
- Hot string solo, during which you grab the guitar by lighting up the Hot String targets and play a sizzling Hot String Solo on the strings of the fiery slingshots;
- and a PartyMeter game mode, which has players rocking the house mastering five different stages and, in the end, earning big prizes.

ZEN Pinball: Inferno for iPhone and iPod touch is currently localized in English only. Version 1.0 of the game comes close to 10 MB in size, and requires firmware 2.0 (or later) to run. The currently-available OS version for Apple's iPhone and iPod touch is 2.1. ZEN Pinball: Inferno costs \$4.99, and can be acquired via the App Store [here](#).
