ATV Offroad Fury 2 Glitches (PS2)

Go underground

ATV Offroad Fury 2 is the second game in the ATV Offroad Fury franchise, developed by Rainbow Studios. The game is sequel to ATV Offroad Fury and, in its turn, has a sequel in the form of ATV Offroad Fury 3. The main draw of the game is the ability to take and drive off-road vehicles on a variety of tracks posing different gameplay challenges. The game is more varied than the first in the series, with more ATVs, more mini-games and more championships on offer. The game also features a host of minigames that you can play: Tag, which involves stealing a ball; Hockey, which is like in real life but with vehicles, and Treasure Hunt, which involves collecting tokens. This is the first of the games in this series that offers online play capabilities. You can try LAN games, direct connections through FireWire and other network setups to see which works best. The game features an extended soundtrack that's especially nice to listen to as you are performing aerial moves. Tracks include: Alien Ant Farm - "Courage"; The Baldwin Brothers - "8 Cylinder Jam"; BT - "The Revolution"; Filter - "American Cliché"; Filter - "So I Quit"; Meeker - "Boom Attack"; Stereomud - "Don't Be Afraid"; Deadsy - "The Key To Gramercy Park"; Logan 7 - "Boomshakalaka"; Korn - "Here to Stay"; System of a Down - "Science"; Cypress Hill - "Amplified"; Garbage - "Parade"; Head On - "Nice To Meet You"; Riddlin' Kids - "Pick Up The Pieces"; Quarashi - "Stick 'Em Up"; Lost Prophets - "Shinobi vs. Dragon Ninja"; Systematic - "Thick Skin"; Mekon - "Whats Going On Mekon"; Utah Saints - "Techknowledgy"; Jurassic 5 - "What's Golden".

GLITHEFly On the Arlington Stream level with the train, enable the "Disable wrecks" code. Hit the front of the train and you can fly. Enable the "Disable wrecks" code and go to any of the freestyle stadiums. Find an inclined position off one of the larger ramps on the outside part. **Go underground** Enable the "Disable wrecks" code. Go to one of the pro freestyle stadiums. Then, go to a slanted area that is at an angle into the ground. If you hold it for a while, you will start to go underground. You will then appear on the outside of the stadium and can explore. Enable the "Disable wrecks" code. Go to Freeport Harbor. Go under the docks and go up to where it connects to the ground. You can go underground. Go to the Arlington Stream level. Enable the "Disable wrecks" code. Find one of the many wooden jumps. Go to the back side. You should see a crossbar of wood. Go to either side of the crossbar and give it some gas. Your ATV and rider should go underground and pop up on the other side. Go to the Arlington Stream level. Enable "Disable wrecks" code. Go to the short two-support beam train bridge. Go under the bridge to one of the two corners where the bridge and land meet. Lean forward and give it gas. You will go underground. If you do this while the train is on the bridge, you will go under the train. Go to Vancouver Ridge level. Enable the "Disable wrecks" code. Go to the ski jump. Go off the jump. Turn around and go straight into the jump. Floor it and your ATV and rider will go under the jump and pop out from underground at the top. Enable the "Disable wrecks" code. Go to Arlington Stream. Go to the waterfall and get under the top rock. Give it some gas. Your rider should go under the rock and pop up on the other side. Here's the final stage of the game:
