Age of Empires II: The Age of Kings is a real-time strategy computer game set in the Middle Ages. It was released in 1999, and it is the second game of the Age of Empires series developed by Ensemble Studios and published by Microsoft. Because of its commercial success, an expansion pack was released: [Age of Empires II: The Conquerors](#), followed by a Gold Edition, which bundled together the game and its expansion pack along with a bonus map and games recorded by Microsoft strategy experts.

[Age of Empires II: The Age of Kings](#) is sometimes called Age of Kings, or abbreviated as AoK, AoE2, Age2 or AoEII. The player controls a society and guides them through four "ages". The game begins in the Dark Ages, where very few buildings and units are available. After a short time, the user gains the ability to advance to the Feudal Age, where more upgrades, buildings and units become available.
