## **Alessandra Ambrosio Super Sexy Lingerie Ad**

*The Brazilian supermodel may be pregnant, but she's definitely not losing the hotness factor*

Alessandra Ambrosio has been deemed one of the sexiest ladies on the planet and for good reason. The 27 year-old Brazilian supermodel - who shot to worldwide fame due to her lucrative collaboration with American lingerie giant Victoria's Secret - made the headlines shortly after the new year, when she announced that she was expecting her first baby with boyfriend Jamie Mazur. As she prepares to become a mother, two uberhot newly-released promo shots for Victoria's Secret are about to remind the world exactly why Ambrosio is currently seen as one of the world's sexiest women. Alessandra has declared herself ecstatic with her pregnancy and revealed that she's looking forward to enjoying motherhood. "This is a dream come true and a really special moment in our lives! I'm very happy to say that our baby looks healthy and that we are really excited to be mom and dad and raising a child together [...]. For the time being, I'm ready to start to enjoy and dedicate myself to this new chapter in my life and I hope to be working soon, enriched by our love for our new baby," the model stated in an entry on her personal blog. And while Alessandra is enjoying her pregnancy, some of you out there may be inclined to mourn the loss of her perfectly sculpted figure, but never fear. The supermodel is clearly not letting go of her highly successful career, and there's no reason to believe she will turn into a stay-at-home mum. Ambrosio - currently under contract with Victoria's Secret "Angel" and spokesmodel for the lingerie brand - is also one of the highest paid beauties on the planet. So, all you Alessandra fans out there, have a good look at these shots, turn them into desktop backgrounds, screen savers, telephone wallpapers and caller IDs to remind yourselves again all those reasons for which Alessandra captured your hearts in the first place. And don't worry: the supermodel's statements clearly point out that she is indeed planning to return to work after she has her baby, and there's no reason to believe she will lose any of her hotness. Heidi Klum did the same three times and is still one of the best-looking women on the planet.
