## [Apple Offers Mother's Day Discounts on Photo Books](#)

*Get 20% off by using a promo code when checking out iPhoto or Aperture*

Still don't know what to get your mother for this year's Mother's Day? No need to look any further because [Apple](#) has got you covered. [iPhoto](#) or [Aperture](#) users can order any photo book by May 11, 2008, and get 20% off by using the promo code LoveMom at checkout. Read on to learn more. To receive your book in time for Mother's Day, Mac owners using iPhoto or Aperture must order by April 30, or May 4 - for express shipping. The offer and promo code are good to use only in the US, Canada and the District of Columbia. Also, if you're using other professional photographic/video software solutions on your mac, the LoveMom promo code won't work. It only works with the above-mentioned iPhoto and Aperture. The e-coupons for Books are valid with iPhoto (iPhoto '04 or later), which is available as a component of iLife. The e-coupon for Books is valid with all versions of Aperture. The e-coupons have no cash value. The e-coupons may be applied only to iPhoto Books and Calendars, and may not be applied to the purchase of standalone prints, or cards. Each e-coupon may be used multiple times during the offer period. The e-coupon may be applied to the subtotal of the transaction, but not to shipping charges or taxes. Apple reserves the right to deny any use of or disregard any e-coupon that it believes to be false or fraudulent. The company also reserves the right to change without notice the Terms and Conditions, modify the offer, or end the offer at any time without notice. Remember that the Mother's Day offer is good in the United States, Canada, and District of Columbia. Visit Apple's web site to see how you can create a photo book with iPhoto.
