## [Battlezone - Cheats \(PSP\)](#)

*Remake of a famous arcade game.*

Set in futuristic international military environments, BattleZone puts players in control of highly maneuverable hover tanks, challenging them in close combat scenarios against their rivals. BattleZone features fast and furious gameplay, photo-realistic environments, eight unique customizable team vehicles, an assortment of high-powered weapons and multiplayer battles. The four-player WiFi mode lets players go head to head, while unlockable weapons, vehicles and upgrades add even greater depth to the gameplay experience. **Cheat mode:** Enter the cheat menu from the options screen. **Highlight one of the following cheat options and enter the corresponding code to unlock it. A sound will confirm correct code entry. Press X to exit the cheat menu. Note: Press Circle to exit the cheat menu to disable all active codes.
