## [Beautiful Katamari - Hints and Secret Achievements \(Xbox 360\)](#)

### *A complete list of hints and secret achievements*

Beautiful Katamari is the fourth game in the [Katamari](#) series (following Katamari Damacy, We Love Katamari and Me & My Katamari). The game was confirmed by Famitsu to be in development for the PS3 and Xbox 360 (Japan), in mid-April, and officially announced by [Namco Bandai](#) Games America on April 20. Both versions were supposed to retain the dual analog control scheme of the PS2 Katamari games, and would also include online play features. Eventually, the game was only released for the Xbox 360 consoles. We know that true gamers play all these games just for fun, as they should and not in order to achieve specific point landmarks to prove their friends they are very cool, but we also know that sometimes you just can't live without achieving everything possible with a title you really enjoy. If that's the case and you want to know exactly what to look for when it comes to the game, we have prepared a full list of hints and achievements. Good luck!
