BenQ Launches MP770 DLP Projector

It has password and a 4000 hours lamp life

BenQ recently released the new BenQ MP770, a powerful DLP projector featuring BenQ's proprietary Senseeye color enhancement technology and BrilliantColor technology for better color saturation and brightness. BenQ MP770 also includes BenQ's Whisper Quiet design, a high 3200 ANSI lumens, a long lamp life of up to 4000 hours, as well as wide range of handy functions including Picture-In-Picture, a 9 setting application mode plus 2 customer preference modes and a 2D keystone correction function. The projector also features BenQ's whisper-quiet design which effectively reduces audible noise to a low 28dB in order not to interrupt the presentation. With a high 3200 ANSI lumens, the BenQ MP770 is able to deliver quality image presentation in bright environment such as outdoor or indoor large location, providing an enhanced image quality. In addition, BenQ's latest MP770 includes Picture-In-Picture for simultaneous displaying two different input sources so that the user can combine live feeds, movies, presentations, and more, and also nine application modes which offer easy customization for all applications in different occasions, a 2 custom preference modes for quickly access of personalized settings and universally designed icons and user-friendly interface. BenQ MP770 features a lamp life of 4000 hours, which lasts for up to 2 years and an extra-fine dust filter that traps microscopic debris before it enters the inside of the projector. BenQ MP770 also has a password protection function which prevents unauthorized use of the projector by requiring a correct password be entered before an input source is accepted.
