Billy Bob Thornton told in a recent interview with Esquire magazine that having sex with Angelina Jolie is not such a big deal and he doesn't understand why Jolie was voted last year the world's sexiest woman. "Sleeping with Angelina Jolie is like '****ing the couch", Bob Thornton said. "Sex doesn't have to be with a model to be good." "Sometimes with the model, the actress or the sexiest person in the world, it may literally be like ****ing the couch." Billy Bob divorced Angelina Jolie in 2002, after 3 years of marriage.
