Here's a woman who's not afraid of vampires. SuperCheats

Bloodrayne - Cheats and Hints

No one can resist a vampire in tights

The human race, being a constant prey for vampires has always been fascinated by the latter. And if the object of that fascination is a really hot vampire in a tight leather suit, the stage is set for a successful game. It is set in 1933 and 1938, just before World War II. As an agent of the Brimstone Society, Rayne is sent to a variety of locations (a small swamp town in Louisiana, a Nazi fortress in Argentina, and an ancient castle in Germany) to battle supernatural creatures as well as the Nazi army. Sounds familiar? **Cheat mode: Enter the options menu and select "Cheat". Combine the columns of words to form one of the following codes. A message will appear to confirm correct code entry.  YOURHOOKERISNASTY **Defeating Beliar and Wulf**To defeat Beliar, you should have guns, and grenades. The blades do not work on him. Use the Magic Eye to find Beliar's

weak point and shoot it. When you run out of guns, shoot the grenades at him. He must be defeated quickly, because if he powers up enough, you will lose. After Beliar is dead, go after Wulf. He will run around the room and attack you. Hit him as much as possible. After a few hits, Rayne will stop and say "That was for Mynce". Wulf will tell her that she is pathetic, and the fight will continue. Repeatedly hit Wulf to win. **Defeating the Hondrox**When you are fighting the Hondrox, you must break down the pillars (long wooden objects) and the floor will fall . Do this twice to complete the level.**Indiana Jones reference**In one of the small corner rooms in the Nazi part of the game, you can break a box to find the Ark Of The Covenant from Raiders Of The Lost Ark. **The wrath of God**In the Louisiana level, destroy the crucifix in the church or the cross on top of the church. You will hear a loud roll of thunder, and the ground will shake.
