## [Buy the Wii-Pimped Toyota](#)

*The customized Wii 2006 Toyota Scion XB created for last year's "Thanksgiving Weekend" contest*

The car in the picture is a [Toyota](#) Scion XB that was purchased by Comedy Central for more than US \$19,000. The car was later [pimped out](#) with a 6.5 Gryphon monitor mounted in the dash controlling the CD/XM ready radio, two 5.8 inch [LCD](#) monitors installed in the headrests, a flip-down 10.2 inch LCD monitor with built-in [DVD player](#), two wireless stereo headphones and another 12 inch flip-down LCD. The winner of the contest stored the car in a Pennsylvania garage and now the car is out for auction on eBay, having been driven very little with only 337 actual miles on board. The Wii-mobile was created by Comedy Central and [Nintendo](#) as a grand prize for last year's "Thanksgiving Weekend" contest and although it is more electronic than mechanic, the Scion runs wonderfully, it has a current inspection on emissions and a factory warranty that can be extended to the person who purchases it. Now, I'm sure you have to be a total Wii fan to get it for yourself, because the van does have [Wii](#) written the size of a horse on it, but given that you can always do a paint-job on the Scion, well that leaves all the great gizmos it is equipped with. So what are you waiting for? Go see everything you need to know about it (miles, transmission, engine, warranty, title etc.) on [eBay](#) Motors.
