[Carmen Electra Has A Crush on Scarlett Johansson](#)

Electra: "She's hot."

Carmen Electra has recently revealed that she has a crush on Scarlett Johansson. "She's hot. Her sexiness is totally appreciated by girls like me," Carmen said. The former "Baywatch" star loves Scarlett's voluptuous body and the way it appears on screen. And speaking of curves, Carmen Electra has had her breasts enlarged from a size 32B to a huge 36DD. "I do regret it sometimes. I had nice boobs before - they were small but nice", the dancer confessed. The actress admits that, since the operation, her career really took off. She has been cast in roles in "Scary Movie", "Starsky and Hutch" and has launched the popular dance show "Pussycat Dolls". She has sometimes considered having her breasts reduced, but changed her mind in a second: "Of course I could have them reduced. But then where would I be?" (in terms of career). Earlier this year, Electra confessed that she and Dave Navarro still have a steamy love life. Even though she has been married to the rocker for two years, she said: "Sex with Dave is the best I've ever had, still." "Everyone says that when you get married the passion starts to go, but with us, it's been the exact opposite, we just can't get enough of each other", she added.
