## [Castlevania: Lament of Innocence Hints VIII \(PS2\)](#)

### *Get the incense*

Castlevania: Lament of Innocence is a video game created and published by Konami Interactive. It was developed just for the PlayStation 2 gaming console from Sony and was launched in 2005. It is classed as an action adventure title with a medieval and fantasy setting that is played from a third person perspective. Castlevania: Lament of Innocence is the prequel that aims to explain the back story on which all the other Castlevania games are based. It basically sets the stage for the continuous showdown between the Belmont family and the vampire Dracula. Castlevania: Symphony of the Night is the inspiration of the team that created the game and the translation into 3D is very important to the series. The player is cast in the role of Leon Belmont, a one time Baron for the King. Sara, the girl he was supposed to marry, is kidnapped and then taken to a big castle, which Leon is forced not to attack. He resigns his post and goes to the castle alone, before being stopped by Rinaldo, a one time vampire-hunter himself. The gameplay is actually hack-and-slash and light role playing. The player gains new abilities and collects relics and orbs. The relics allow the player to have special skills necessary to solve certain puzzles, while the orbs enable offensive or defensive powers. The bosses in the game will usually require two or three attempts before they can be killed, because of how tough they are.

**GAMEPLAY HINTS**

**Meditative Incense Relic** This relic is found in The Dark Palace of Waterfalls. Get all the coins in the first of the two platform roller coasters. This is the one that starts nearby the Ice Elemental Chamber. Start on the right side and every time you get a string of coins, move to the other side quickly. After eight groups of coins move to the center of the tunnel and it will be there. You must get every coin for it to appear. Do the other platform roller coaster to get another item. It will either be a Heart, MP or HP Max UP Container.

**Member Plate** Defeat the Spartacus Skeletons. They drop a Member Plate. This item will give you 10% off items in the store. Spartacus Skeletons are larger and have the bigger swords and shields. An easy place to fight them is in the Pagoda Of The Misty Moon, on the second floor, in the right most wing in the tower area. Here's a trailer:
