## [Chase: Hollywood Stunt Driver Passwords and Cheats \(Xbox\)](#)

### *All the Career passwords you need*

Chase: Hollywood **Stunt** Driver is a 2002 videogame for the Xbox, developed by I-Imagine and published by Bam! Entertainment. It is a film stuntman simulator in the style of contemporary game Stuntman. Chase is one of many games to make use of the Xbox's customizable soundtrack capabilities.

**Players** take on the role of professional stuntwoman Chase Corrada as she performs vehicular stunts for various films. Each film is directed by "Mr Chin", a famous Hong Kong director noted for his spectacular chase scenes and who had previously worked with Griffin Corrada, Chase's famous stuntman father. In each film, Chase finds herself working/competing with rival stuntman Rick Baen.

### **Career Mode**

"Career Mode" takes place across four films, with the player performing stunts for four scenes in each film. The films are:

The Unchaseables - a Gangster film

Chase of the Triad IV - A Hong Kong action film

Chasing Survival - a post-apocalyptic film in the style of Mad Max

The Spy Who Chased Me - a stylish spy film in the style of the James Bond films

"Career Mode" ends with the "Final Scene": an illegal Formula One street race between Chase and Rick.

After successful completion of a "scene", players then view the "scene" they just "filmed" as it would appear in a film (with things such as cameramen and hidden ramps "edited out"). Players can opt to save these filmed scenes and rewatch them in "Replay Theatre"
