Counter-Strike: Condition Zero Cheats

Terrorists win.

Counter-Strike won soon after its release a world fame the FPS genre has never seen before. It was declared the number one online action game in the world. Millions of shooters gave up really quickly their Quake guns and the futuristic Unreal arsenal and engaged in the ever going fight between terrorists and counter-terrorists. No more Blue Team and Red Team (and you need to search for a few minutes to see what team you're in). That's old stuff. The vicious terrorists and the tenacious counters are in action. Quickly swap your through your weapon inventory and set off to engage thy foe. But be cautious about it, as you'll be a spectator for a few seconds if you die. Fortunately, life doesn't need to be that harsh as lots of cheats are available. And you can take your pick. You are just one key press away from the rewarding cheat console. All you need to do is press the tilde key "~" during gameplay, type `sv_cheats 1` to enable the cheats and restart the game. Bring down the console and type your wish code `away.god` - God mode fly - Fly mode noclip - No clipping `notarget` - Invisible to enemies `impulse 101` - Get weapons `bot_kill` - Kills all bots and allows you to win if the bomb is not planted `restart` - Restart the current map without losing any goals `changelevel` - Change map `sv_restartround 1` - Restart round `cl_levellocks 16382` - Brings down all deleted scenes `bot_zombie 1` - Makes them just stand there `bot_pistols_only` - Bots will only buy pistols `bot_sniper_only` - Bots will only buy snipers `bot_knives_only 1` - Bots only use knives `kick (bot_name*)` - Kicks the bots `sv_gravity amount*` - Set the gravity level to amount* (default is 800) `mp_c4timer amount*` - Set the C4 timer to amount* (default is 45) `mp_startmoney amount*` - Sets the starting money to the value of amount* (default 800, maximum 16000) `mp_freezetime amount*` - Freezes time for the specified amount* of time (you're steel free to wander around) `mp_friendlyfire 1/0` - Enables/disables friendly fire `v` - Instant maximum money `give item*` - Spawns item* **Available Weapons** (to be used with the give cheat): `weapon_ak47` `weapon_aug` `weapon_awp` `weapon_deagle` `weapon_elite` `weapon_famas` `weapon_fiveseven` `weapon_g3sg1` `weapon_glock18` `weapon_m3` `weapon_m4a1` `weapon_mac10` `weapon_mp5navy` `weapon_p228` `weapon_p90` `weapon_scout` `weapon_sg550` `weapon_sg552` `weapon_tmp` `weapon_ump45` `weapon_usp` `weapon_xm1014`
