[Crash 'N' Burn Hints and Glitches \(PS2\)](#)

Win all races

Crash 'N' Burn is a video game developed by The Climax Group and published by Eidos Interactive Inc. The game was created for the PlayStation 2 console from Sony and for the original Xbox from Microsoft. It was launched in November 2004. The title is classed as a racing and driving game, which can be played from a third person perspective.

The game focuses on aggressive racing against as many as 15 other cars. Most of the circuits are set in cities, which makes them hard to win. You must try and keep damage to a minimum as it is sure to affect the way your car performs. After each race that you manage to win, cash is earned and then it can be used to upgrade the car.

There are four car types available: compact, pickup, muscle, and sports. Apart from the single player mode, you can also play last man standing, bomb tag, running man, and kamikaze.

GAMEPLAY HINTS

GLITCHES

Easy win

Choose to race, then go to Losvagas X2. Set the laps to 20-25. Hide behind the first jump. The CPU will not notice you are there and keep passing you. When they are all dead, go past them and finish the race. You will get lots of experience points and money.
