[Crusader: No Remorse - Cheats](#)

The good old times...

Crusader: No Remorse was released in 1995. Set in a nearby future, the games center on the main character, a Silencer nicknamed Tin Man or Captain, who wears a suit of red armor, looking rather like the Mandalorian armor of Star Wars, as well as the Emperor's Royal Guard from the same universe. Both games use an advanced version of the Ultima VIII isometric view engine featuring full SVGA graphics. Sound and music use their own engine called Asylum Sound System: each mission and intermission of the games has its own soundtrack for which digital music. **Cheats: Type loosecannon16 to enable cheat mode.
