## **Cue to the Gents: Jessica Alba Is Single!**

*The actress reportedly broke up with her boyfriend over the phone*

Jessica Alba is, if not the most amazing and talented actress that ever walked this earth, at least one of the hottest and down-to-earth female celebrities out there. But, for some reason or another, there was a period of time (of about two years and a half or so) when she chose to go for all that normal love affair and stuff. Sure, she always kept it low-key, but I bet there were millions of male fans who thought they would have been better at the job of being her beau than Cash Warren was. Well, if this rumor is true, all of them might actually stand a chance! After a long period of dating, reports from the US media indicate that Jessica has called everything off with Cash... over the phone. The two met on the set of the first 'Fantastic 4' movie, where Alba was the main star and Mr. Warren was just one of the many assistants of the film's director. It was love at first sight, they said at the time, and it wasn't before long that the stunning Jessica began taking him with her at various social outings and movie premieres. But, all this time, Jessica kept the appearance of a girl who was not that much into serious relationships, by repeatedly stating in a multitude of interviews that she is open to the idea of one-night stands or ever threesomes (I am not making this up, she really said it!). No one asked Cash how he felt about all this because, frankly, I don't think anyone cared: he got to date the sexiest woman on the planet! And now we get to the juicy part: Jessica reportedly called Cash and told him that 'I'm not in love with you anymore'. To make things easier (like when ripping off a patch), the very next day she sent one of her assistants to pack Warren's things and move them from their joint LA home. Rumor has it that the breakup, quote, 'happened almost out of nowhere' and that 'Cash thinks it's for another guy but doesn't know. He's totally devastated'. Also, they say the initiative to break it off came entirely from Jessica. Now, you can rejoice! As for myself, I'm off now - moving to LA. They did say she had a house there, didn't they?
