[DS - Hudson Soft Brings Details on Bomberman Land Touch 2](#)

Engage in battles with up to 8 friends at one time via Wi-Fi

If you've got a [DS](#), then you must want as many [Bomberman](#) games as possible right? I mean, sure Bomberman is a great game for all kinds of platforms, but handhelds are the best support for the genre and what better game to get yourself if not Hudson Soft's Bomberman Land Touch 2. The publisher (and developer of the game) has recently rolled out a few details about the game. Care to have a look...? According to this newly released fact sheet from Hudson Soft, Bomberman Land Touch 2 is set to throw gamers in a fun-filled, theme park adventure as they discover intrigue and a host of addicting mini-games to be played with up to 4 friends, if single player becomes boring (which is not likely to happen). No more, no less than 40 mini-games are surely more than enough to fulfill your multiplayer action needs, while the original Bomberman Battle game has also been included in Bomberman Land Touch 2 for the DS. Being able to team up with three friends, you will be engaging in battles with up to 8 friends at one time via Nintendo Wireless Communications, or go head to head via the handheld's Wi-Fi connection. In short, here's what Hudson Soft's game has to offer:

- **40 Mini-games** - Sports fan? Try your stylus at the Soccer Striker mini-game... Or are you the outdoors type? Jump in the river and try the Up the Creek mini-game. With 40 unique, addictive mini-games there's something here for everyone.
- **Multiplayer Action** - Play up to 8 players via Nintendo Wireless Connection or go head-to-head against 4 of your friends via Nintendo WiFi Connection. Single card and Multi-card play is supported.
- **Fun-filled Adventure** - Uncover the devilish plot of the Evil Bomberman and uncover 2 alternate endings to the game.
- **Full Stylus Control** - Specifically designed for the Nintendo DS, BOMBERMAN LAND Touch! 2 features full Touch Screen control.
- **Original Bomberman Battle Game Included!** - The Original Bomberman Battle game is included with all new maps and power up items. Multiplayer Strategy Action doesn't get better than this!

Bomberman Land Touch 2 is being developed by Hudson Soft and published by Hudson Entertainment. Launching January 2008 for Nintendo's DS as an action platformer, the game has been rated E for everyone. Hudson still has to price the product, so stay close for updates.
