[Deep Sea Tycoon Cheats and Hints \(PC\)](#)

Extra and easy money codes

Deep Sea [Tycoon](#)'s 3D engine gives you complete camera freedom in a surround sound environment as you travel to dozens of ocean worlds including the colorful warm [Caribbean](#), the icy Arctic Ocean, deep dark seabeds and fiery volcanic trenches. Each new world is filled with 100's of creatures including a rainbow of fish, sharks, whales, dolphins, mermaids, turtles, Atlanteans and even dinosaurs! Deep Sea Tycoon also features RTS gameplay, a first for Tycoon games. Jump inside a torpedo turret and get ready for some first-person firepower as you defend your city from Pirate raiders and renegade Atlantean Shark-Riders! Build Police and Military weapons like Sonic Blasters, Missile Launchers, Mine Fields and launch Submarines to protect your people from the unknown dangers of the deep sea! Or if you prefer a more peaceful trip to the undersea realm, build Zoos and Sanctuaries for tourists to visit while you create whales, dolphins, manatees, scuba divers and run deep-sea Submarine rides!

CHEATSE**Extra money** Please note: This procedure involves editing a game file; create a backup copy of the file before proceeding. Start any single mission and immediately save the game. Quit the game. Use a text editor to edit the "*.save" file that corresponds to that game session in the "save_game" folder in the game directory. Find the line "[COLONY_GENERAL_DATA]". There should be some digits after that. The format of the numbers should resemble: **722546.000000 43900.000000** Change the second number to any value desired. It is the amount of money given to you for the mission. For example, change "43900.000000" to "4390000.000000" to get that amount of money.

HINTE**Easy money** Buy the Atlantian Monument by building a school. Build it then construct a warehouse. Finally, build the Atlantian Treasury and fast forward the game so you get 80 Atlantis Crystals. Sell them to the highest bidder to get about 5,000 gold.
