Draw your own hero
wikipedia

[Drawn to Life Cheats \(DS\)](#)

Demonstrate your skills

A shadow-like evil has covered the Raposas' village with darkness and has taken the sun, moon, sky and much more. You can help save their dying village and rebuild it back to greatness by creating a Hero! Play as your newly created Hero and fly, run, jump, swim or smash your way through new worlds and dangerous enemies. Complete your adventure by creating weapons, tools, animals, plants and almost everything in the game. Play as your creations and conquer a variety of different environments including snowy fields, tropical islands and dark forests. Drawn to Life is the first videogame where the pen - or the stylus - is mightier than the sword!

Drawn to Life requires the player to create a hero in order to free a cursed village from an encroaching darkness. It features numerous platforming levels, a top down RPG Village and other elements (such as vehicles, weapons, platforms, etc.) which are drawn or colored by the player using the stylus.

Drawn to Life is a standard 2D platformer with the unique hook of playing as your own drawn character. By using the stylus, the player can design the head, arms, legs, torso, and joints for his character using a variety of colors. Character creation also features 15 or so pre-made character templates which can be traced, or have their body parts swapped in and used. The player can also buy new color patterns, songs, games and moves in the Village Item Shop. Some of these include the "flip kick", "slide", "dash", and "uppercut".

CHEATS

Invincibility

Pause game play, then hold L and press A, X, B(2), Y.

Full health

Pause game play, then hold L and press Y, X, Y, X, A.

30 ammunition
