## [Dungeon Siege II and Broken Worlds Cheats \(PC\)](#)

### *Prepare yourself for the Second Age!*

Although the release of the game was delayed by one year, RPG fans say it was worth it. The sequel to the popular action-RPG [Dungeon Siege](#) comes to bring the farmer face to face with even more frightful monsters and “jaw-dropping special effects” (as Gas Powered Games like to say). A hundred of years after the events in Legends of Aranna, the Great Cataclysm occurs and the world is bestowed by a magical catastrophe that puts an end to the First Age. Nothing to do now but set your humble (only at the beginning of course) character on a new quest to be the ultimate hero (or heroine). The lands of Aranna greet you, but so do danger, death, magic and lots of other characters like you. With the mule outdated, new exotic creatures await to serve under your command. You’ll look in the eye the most unexpected allies and fight the most dreadful monsters this world was capable of holding. But the lands of the fantastic continent of Aranna are never really safe from danger, so Gas Powered Games got back to work and developed the expansion pack for Dungeon Siege II: [Broken World](#). In Dungeon Siege II you destroyed Valdis and unleashed an unspeakable abomination that has waited a millennium for its freedom. As the darkness descends on the lands, the world gets torn apart by all sorts of monstrosities. The fate of Aranna is once again at your mercy. The epic storyline of the game is surely a most interesting aspect to be on the lookout for. That’s why we figured you may need a little push from behind and came up with some harmless (to you only) cheats. To activate them all you need to do is bring up the console by hitting ENTER and then typing a “+” in front of the codes to activate them or a “-” to get them deactivated. Try them out: version – shows the game version movie – enables you to record a movie bushsux-oluaowr – teleports the character drlife – gets the character into God mode quwhba – instant kill iraq-sux-eszaryz – a silver ring is in store for you luvtana-aeviyaa – silver ring, weapon, garments superchunky – more chunky krisrox-lzjlcoj – less chunky
