[Dungeon Siege, Legends of Aranna and In the Name of the King Cheats \(PC\)](#)

The mule is dead! Long live the tragg!

The famous game designer for his contribution to the gaming world Total Annihilation, Chris Taylor bravely led his team at Gas Powered Games to set the bases for yet another successful series – Dungeon Siege (GPG is now developing a highly anticipated RTS following TA's legacy – [Supreme Commander](#)). Dungeon Siege was welcomed as a rewarding addition to the RPG genre and soon the farmer that set on the path to save the Kingdom of Ehb became a well known character to the fans of this genre. The medieval fantasy world with rich geographic regions proved to be a great place for the shy farmer to turn into a genuine hero (or heroine). The action-RPG style (Diablo like) received a favorable response from the gaming community and soon, two expansion packs followed: Legends of Aranna and In the Name of the King. Three years later also came out the sequel [Dungeon Siege II](#) to continue the story started by the events in Legends of Aranna. As the hack-and-slash action continues, feel free to ease your task a little (or just enjoy a few moments of fun) by making use of some of the following cheats. You will need to press ENTER during the game to bring up the console then type down the codes. Please make sure you type in front of the code a "+" in case you want to activate the specified cheat or a "-" in case you wish to deactivate the cheat. **Useful codes:** zool – character becomes invincible sixdemonbag – adds +150 in Allchecksinthemail – adds 9999999 Gold to your inventorypotionaholic – adds 3 super health and mana potions to the inventorysixdemonbag – gives 6 high level summon spellssniper – increases range of archersdrdeath – maximizes the statsloefervision – no fog version – shows the game version **Funny stuff:** chunky – always chunky superchunky – chunk factor shootall – clicks not requiredxrayvision – no textures minjooky – very small character maxjooky – very big charactermovie – record a movie mouse – enable mouse rings – enable selection ringsfaetehbadgar – gives the character a full set of... newbie gear
