## [Dynasty Warriors 5: Empires Unlockables \(Xbox 360\)](#)

### *A complete list of the things you can unlock while playing*

Dynasty Warriors 5: Empires is a Japanese button mashing game developed by Omega Force and published by Koei on the 25th of August 2005 in Japan, the 13th of September 2005 in North America and the 23rd of September 2005 in Europe. The game also combines [beat 'em up](#) and 3D action elements with its button mashing. The game includes all the characters from the fourth title in the series plus six brand new ones (Guan Ping, Xing Cai, Cao Pi, Pang De, Ling Tong and Zuo Ci). Also, the Empires expansion added five brand new missions and soundtracks from previous titles. The game was received with mixed reviews from critics. We know that true gamers play all these games just for fun, as they should, and not in order to achieve specific point landmarks to prove to their friends they are very cool, but we also know that sometimes you just can't live without achieving everything possible with a title you really enjoy. If that's the case and you want to know exactly what to look for when it comes to this game, we have prepared a full list of unlockables for you. Good luck!
