EDGE Tech Corp Releases Highest Capacity 2.5" External Hard Drive

100GB

EDGE Tech Corp, a supplier of DRAM and Flash memory upgrades, portable computing products, storage devices, and other experience-enhancing technology solutions announced the introduction of the 100GB DiskGO! 2.5" Ultra Portable Hard Drive. "EDGE is one of the first to offer a 100GB 2.5" drive mechanism in a small, external form factor," stated Jeff Thompson, President & CEO of EDGE. "Whether you use a laptop or desktop, the 100GB 2.5" hard drive is the perfect way to add storage capacity to your computer. Don't let its trim size fool you -- even though it doesn't take up much space, it holds over 1500 hours of digital music or 25,000+ digital pictures," continued Thompson. With its larger storage capacity and speedy transfer rates of up to 480Mb/s utilizing USB 2.0, the new 100GB DiskGO! 2.5" Ultra Portable Hard Drive can be used for a variety of applications such as quickly transferring documents between office and home, boosting your PC's storage capacity, and backing up important files, all while fitting in the palm of your hand. The new 100GB drive retails for \$219.95 after \$30 mail-in rebate. EDGE's complete product portfolio is available for purchase through the company's reseller partners nationwide including CDW, Insight, PC Connection, PC Mall, Zones, eCost.com, TechDepot (an Office Depot Company), Walmart.com, and Staples.com as well as through distribution at Tech Data, Ingram Micro and D & H Distributing. This specific EDGE product is also available for purchase through the company's online store at <http://www.edgetechcorp.com/store/EDGDG25USBHDD.htm>.
