[Enjoy Pearl-White Teeth in a Matter of Minutes](#)

With the Ionic Teeth Whitener from CleverGear

The Ionic Teeth Whitener mouthpiece

Teeth are a very important part of our body, since not only do they help us chew our food, but actually play a very important part in our social lives. Nobody likes a person with yellow or stained teeth, either from drinking too much coffee, smoking or eating way too many sweets without brushing regularly. That is why more and more people are going for whitening treatments, often very expensive and even painful, in some particular cases. However, it seems that there's a much cheaper and equally effective solution out there, namely the Ionic Teeth Whitener presented by CleverGear. This system consists of a mouthpiece that uses a blue LED light powered by a 9V battery in order to activate the silver ions in a whitening gel provided with the device, and works in the simplest possible manner. Thus, all the user has to do is mix the aforementioned gel with a gel accelerator on the mouthpiece, place it in his/her mouth, and turn on the light for 2 minutes. The same activity must be repeated two more times in a time interval of 21 minutes, in order to remove all the stains from coffee, soda, wine, smoking etc. Moreover, in order to keep the pearl-white smile they've just obtained, people who use this device are strongly encouraged to spray their teeth with rinse and whitening rinse accelerator and then use the special light once or twice a week to remove new stains. CleverGear offers the Ionic Teeth Whitener kit (comprising the mouthpiece with light, 3 gel applications, 2 spray rinse bottles, and complete instructions) for around 30 US dollars, which is a lot less than a similar treatment at a dentist's office. We are just a few, but there are many of you, Softpedia users, out there. That's why we thought it would be a good idea to create an email address for you to help us a little in finding gadgets we missed. Interesting links are bound to be posted with recognition going mainly to those who submit. The address is .
