[Eragon Codes and Unlockables \(PS2\)](#)

Ride the dragon Saphira and unlock the Fury Mode

The game is based upon the recent Eragon film, which is in turn based on the book Eragon, by Christopher Paolini. The games were released on November 14th 2006 in the United States of America, on November 24th 2006 in the European Union and on November 23rd 2006 in Australia in order to coincide with the release of the aforementioned film. In the game the player takes on the role of the main protagonist from the book and film, Eragon and occasionally takes control of his dragon Saphira. The majority of the game is taken up by third-person combat, usually on foot. At the start of **the game** the player can use four "combo" attacks. Additionally, they can use four basic magic attacks: magic push/pull (Thrysta Vindr), magic shield (Skölrir), and magic fire (Brisingr). These four magic attacks can be used in different ways (for example, brisingr arrows, or throwing spears in baskets magically.) On the PC and console versions (excluding the Xbox 360 version) there are sixteen levels. **Codes Unlock Fury Mode** On console from the ingame pause menu.
