## [Erotic Car Seat Massager Helps You Arrive Faster!](#)

*The car seat retails online*

Traffic jams...I hate them! But, after seeing this, I actually want them to happen...Since vibrating things are commonly used in all sorts of relaxation therapies, it was a matter of time until someone would have thought about integrating vibrators in car seats. Forget about romance, just think about the pleasure of using such an interesting relaxation methods while waiting at the traffic lights. The vibrating car seat doesn't require any complicated installation, as it features its own engine, providing intense stimulation 'to your more sensitive areas'. It is said to deliver powerful vibes to 4 areas of the seat cushion, which means your bottom area is covered. It gets powered with 4 AAA batteries, which are not included in the purchased package. I have to admit I had higher expectation when hearing about this device, which proved to be much simpler and easy to attach to just about any type of car seat. Not to mention it can actually cure your blue depressed a\*s. However, I am not very sure how this thing can be safe while being on the open road. I might even get one of these for my office chair and use it in important meetings. The Erotic Car Seat Seduction Massager is definitely great for you're a\*s pains... and it would surely make your stops in traffic jams much more pleasurable than ever before. Hopefully, you won't lend the car to your grandma too soon. If you're the romantic type you should purchase one of these from lovehoney web store, where it retails for about 60 pounds a piece. Which makes me wonder what's going to be the next car gadget? How about a hot tub? Sweet...We are just a few, but there are many of you, Softpedia users, out there. That's why we thought it would be a good idea to create an email address for you to help us a little in finding gadgets we missed. Interesting links are bound to be posted with recognition going mainly to those who submit. The address is .
