Eva Longoria's Career Change

'Wife' turns to writing steamy novels

We have known the petite brunette ever since her earlier days in 'The Young and the Restless' soap opera. Now, men are positively mesmerized by her beauty and possibly never miss a single episode of the smashing hit 'Desperate Housewives'.Recently, Eva decided to transfer part of her sex-appeal from screen to paper. She was offered a huge deal that she just couldn't say no to. But she refuses to talk about the plot, as it is strictly confidential and will remain so until the date of release of the book. Even more, she hasn't even hinted as to what the title might be. But she did warn everybody that the book is going to be pretty steamy, because she said, quote, 'let's just say I have a wild imagination'.
