[FIFA 2006 Demo Finally Released](#)

The most expected football simulator has a playable demo available

Ea Sports has announced each month new details about the latest release of the FIFA series, but what they didn't mention was the demo's release date. Finally, it's available! Check out our [download](#) section for the demo. Trust me, it's worth it. Intuitive game play enables you to command every move of your player with pinpoint accuracy. Passing, shooting and tackling is now more responsive than ever and enables you to trap, shield and dribble like a world-class football player. Experience 90 minutes of heart pumping football, feel the Team Chemistry of your side and the sense of momentum shift as you battle for supremacy on the pitch. As the Midfield General you'll control the overarching strategy of the game, dictating the pace and performance of your players as you execute strategic decisions on the fly using the tactical play button configurations. Master the most immersing management mode ever. Sign sponsors, scour the transfer market and buy players to build the perfect squad. Uncover the stars of the future or drop the struggles and make some extra money. My FIFA now gives you the tools to create a star-player and customize every aspect of FIFA 06 to fit your individual playing style and preferences. FIFA 06 delivers the most comprehensive line up of official licensed leagues from around the world of football with an unprecedented level of real clubs, kits, stadiums and players. And that's not all, the full version will give you football as much as you want, whenever you want. We're all looking forward to its release.
