Custom sounds, carts level tips and how to defeat plants boss

Feel the Magic: XY/XX, known in Japan as Kimi no Tame nara Shineru, and in Europe and Australia as Project Rub, is a [mini-game](#) compilation developed by Sonic Team's UGA Division and published by Sega for the Nintendo DS handheld video game console. It was first released in North America, and later in Japan, Australia, and Europe. Feel the Magic: XY/XX is played solely with the stylus and microphone, and features a voice recognition system through both speaking and breathing. It is similar to WarioWare: Touched!, as it is composed of several minigames that are loosely linked, as the player tries to impress the girl. ([Wikipedia](#))
