[Free Windows Vista Gadget Fiesta](#)

Via an automated gadget generator

Have you been looking for a way to amplify your Windows Vista gadget library? Then Amnesty Generator 0.6b is the right tool for you, no doubt about it. According to the product's description, the sky is the limit. Amnesty Generator 0.6b was designed as a fully automated gadget generator for Windows Vista. "Easily convert millions of web widgets, games and videos - designed to live on home pages, blogs or MySpace - into gadgets for your Sidebar. If you like widgets on the web, you'll love them on your Sidebar," reads a fragment on Amnesty Generator 0.6b. Moreover the generator is also available for Mac OS X. Either if you are looking for a way to spice up the Windows Vista Sidebar or the Mac OS X Dashboard, Amnesty Generator 0.6b will enable you to bring a fiesta of gadgets and widgets on your desktop. Among the key features of the product we can enumerate the autofill feature, support for Flash widgets, games and video and the included inline step-by-step instructions that will enable users to create gadgets with zero coding experience. "Now you can place Google gadgets, Grazr RSS readers, YouTube videos and more onto your Sidebar. Copy and paste the HTML code for a web widget directly into Amnesty Generator and generate a new Sidebar gadget with the click of a button," Amnesty revealed. Amnesty Generator 0.6b is available as a free download and it is the latest version of the product. Via this latest release, the developers have added updated support for SpringWidgets and for Grazr, and also resolved the GeneratorPlugin error dialog. Amnesty Generator 0.6b was tested by Softpedia as being [100% Clean](#) and is available for download [here](#).
