## [Girl Tattoos Huge Zelda Symbol](#)

*Tattoo - whatever...! Girl - HOT!*

You have to admit that a woman's body is the most beautiful thing in the whole world. Not that it's got anything to do with the picture in the left, I was just sharing with you my feelings towards women. But yeah, the girl in the photo is great. Too bad we can't see her face. This one I found by accident on BitsBytesPixelsSprites, through Kotaku. The tattoo however, is not so great. It's too big, lacks color (a tattoo this size would need some color) and it's shaped wrong (the bird's feet should be longer and not so far away from each other). Anyway, the girl compensates with looks and she clearly knows a thing or two about photo shooting. But what's up with that bag of Oreos? Oh my god, is that a trash bin in the right? Don't tell me that the photo was accidental. The girl meant to sit in that exact position and have her picture taken with that big [Zelda](#) tattoo. So then, you ask yourself: "Would it have been too much trouble to get the garbage out of the way?" If you take out all the garbage in that photo, you could be fooled it was a picture from a men's magazine. Honestly, the girl looks great. And I thought a girl's room was supposed to be all tidied up (not that I've been in one). Anyway, I have to say it beats the [Konami code and GameBoy](#) tattoo, I saw last month. And yes, maybe I am a little influenced by the girl's looks. Go ahead and kill me!
