[Grand Theft Auto: Vice City Cheat Codes \(PS2\)](#)

The best-selling title on the PS2 console

Grand Theft Auto: Vice City is the fourth video game in the Grand Theft Auto franchise. Designed in the UK by Rockstar North (formerly DMA Design) and published by Rockstar Games, it debuted in North America on October 27, 2002 for the PlayStation 2 and quickly became the best-selling video game for that year. It uses a tweaked version of the game engine used in Grand Theft Auto III and similarly presents a huge cityscape, fully populated with buildings (from hotels to skyscrapers), vehicles (cars, motorcycles, boats, helicopters and RC Toys) and people to explore. Vice City's setting is also revisited in Grand Theft Auto: Vice City Stories, which serves as a prequel to events in Vice City. Vice City is a prequel to the preceding game in the series, GTA III (which takes place in 2001). The game is set in fictional Vice City, which is based on Miami, Florida. The game's look, particularly the clothing and vehicles, reflect (and sometimes gently parody) its 1986 setting. In contrast to the gritty urbanism of [Grand Theft Auto III](#)'s Liberty City, Vice City appears (mostly) clean and upscale, with golden beaches, waving palm trees and vivid purple sunsets.
