[HTC Touch Diamond Going to Canada](#)

Via Rogers Wireless

Great news for all you HTC fans, for one of the most appreciated HTC models, the [Touch Diamond](#), is finally coming your way thanks to Rogers Wireless. Moreover, Rogers will be slapping onto this device some very appealing applications, in order to make it worthy of all the time you spent waiting for it.

One of these services include the capacity to customize your Diamond, including contacts, photos, weather and music in a very intuitive way, mostly due to HTC's hallmark [TouchFlo 3D](#) interface.

Moving on, this [HTC](#) is great for browsing the web, bringing you high manageability and, most importantly, features such as work and personal email, Opera Internet browser, which greatly increases the web experience, as well as several very original and innovative applications.

In order to accurately present the multimedia features, [Mobile TV](#) Rogers MusicStore and wireless video calling are imperative, for only through such applications users will get the much wanted "close" connection with family or friends, while also keeping themselves constantly entertained.

Besides the fact that this [Diamond](#) was created mostly for online interaction between users and within their social circles, while also granting quick and constant access to all sorts of information, this HTC Touch also comes with Wi-Fi support, GPS, the Windows Mobile 6.1 OS, a 3.2 Megapixel camera, a 2.8" VGA touchscreen and a very entertaining YouTube application.

An important aspect about the [YouTube](#) service is that, aside from offering you great and easy access to user-created video content, it also brings innovative features like switching from portrait to landscape by just turning the device sideways. Moreover, it comes with automatic screen orientation, and can offer all types of graphical video or animation interaction.

On [Rogers](#), the device comes priced at \$199.99 on a 3-year voice and data plan, the services delivered by Rogers coming for about \$45 per month.
