## [Hamsterz 1 and 2 Hints and Glitches \(DS\)](#)

*Full collection of gameplay hints and glitches for the series*

The cuteness factor is off the charts in Petz Hamsterz 2 for [Nintendo DS](#). Pat, feed, talk to your hamster, and shower it with gifts, toys, and love! Build the ultimate home for your friend with fully customizable cages and over 200 items and toys. You'll never tire of spending time with your cute and cuddly hamster friends.

Progress through the game to unlock exciting mini-games. With a [DS](#) wireless connection, invite your friend hamster to your cage. If a male and female fall in love, you might find yourself the proud owner of a special baby hamster!**Hamsterz 1 GAMEPLAY HINTS**Hammy holds more HamsterzHammy will hold more than four Hamsterz for you. It is possible to have six of them; five with Hammy and one out. Also, the more Hamsterz you have, the more you can go to the bedroom and get presents which lead to receiving bigger cages faster.

**GLITCHES****Misspelling**Get a pipe for your hamster to crawl in. If your cage is too small, a message stating "he cage is too small!" instead "The cage is too small!".**Hamsterz 2 GAMEPLAY HINTS****Aunt Sofia**After you visit your cousin Mary a large number of times, you should get an event when your Aunt visits Mary. It starts out like any normal visit, but then, after you talk, another message appears: (knock) (knock), and it is your Aunt Sofia. After meeting each other Aunt Sofia is added to your destinations map.**GLITCHES****Unlimited money**To perform this trick, you must have unlocked the birthday cake from the store and have enough stars to purchase it. You will also need to purchase a new hamster of any breed/type. Place your new hamster in the cage of your choice and go to the "Special Items" menu. Select the birthday cake and place it somewhere in the cage away from the hamster. Once you place the cake in the cage, you will automatically get over 1,000 stars at once. Remove the cake before the hamster begins to eat it and repeat the process to garner yourself as many stars as needed. This glitch can be repeated as many times as desired to reach the maximum allowed stars in the game. This glitch works on the premise that the day you buy your new hamster is actually the hamster's birthday. The birthday cake gives quadruple the stars on a hamster's birthday. This also works if your hamster baby is born on the same day.Here's some footage from the first installment of the game:
