Extinguish the fire in you!

Remember when you were a child and your parents always told you not to play with fire? Well, if you don't like fire and you want to extinguish it, [HandyGames](#) brings you Little Firefighter where you can tame the flames of Hell itself.

The story of the game is simple but addictive, and even if it might sound a bit scary, the game is fun to play. You are little Tobi and you dream of being a firefighter just like your dad. Guess what? In this game dreams come true. While in a dream you travel to the south, the deep south, and you go all the way down to hell. Helped by your firetruck Dandy, which provides you with the best equipment tools for firefighting, you need to fight demons and extinguish the flames of hell. When you do that, you make it a better place, because fields of grass and flowers grow on the now wet land and fluffy bunnies roll around as you end the reign of fire. You can collect power-ups and upgrade your equipment so that you defeat all the evil more easily.

The game features firefighting action in cuddly surroundings, hellish campaigns with up to 30 missions and, if you really want to kick it, you have random maps so you can have all the fun you want all the time. Plus, you have dynamic game difficulty for little and bigger Tobis and also 8 mighty power-ups that help you fight the demons. And, as in any game, you can save your highscores and share them with your friends. Another nice feature is that you get extensive training and get to be a 'Certificated Demon Extinguisher'.

[HandyGames](#) released Little Firefighter last week, so it should be available for purchase in case you're looking to battle hell itself.
