Is Demi Moore Pregnant?

Rumors about actress Demi Moore being pregnant with Ashton Kutcher started to spread around after she showed up at a charity event

Rumors about actress Demi Moore being pregnant with Ashton Kutcher started to spread around after she showed up at a charity event. Demi brought a baby's bed and dresser at the Green Power Baby Shower auction in Santa Monica and witness said she was looking five or six month pregnant. According to Femalefirst, a source who spotted the star watching 'The Talent Given To Us' in a Los Angeles cinema earlier this week, revealed: "She is definitely pregnant. She's about five or six months - I know, my wife just gave birth - I know what pregnant women look like! She sat there watching the movie, with her legs spread, hand rubbing her belly with Ashton's arm around her the whole time".
