## [Ivyskin Rolls Out Xylo Touch-Thru \(T2\) Hard Case for iPhone](#)

*Covers and protects your iPhone's screen entirely, allowing for touchscreen functionality*

Those who cherish their **iPhone** for what it's **capable of** and how it looks surely want it to live long. Ivyskin's Xylo Touch-Thru (T2) is the iPhone's elixir of life, as the just-released hard case sports a scratch-resistant shield that still allows one to use its touchscreen features. It's pretty slim too. Check it out!"Xylo Touch-Thru (T2) case by ivyskin is the first of its kind to provide a hard screen shell over the iPhone. This German designed material is second to none on the market today! Enables you to navigate the iPhone's screen with the hard scratch resistant shield. ivyskin has designed and manufactured the all new T2 case from scratch by using the latest technology available in crystal case manufacturing. Another breakthrough from a company that always thinks outside the box."Ivyskin.com explains that "the Surface Xylo Wave (SXW) technology passes ultrasonic waves that pass over the touch screen panel and transfer them to the iPhone's screen without any interferences. When the panel is touched, a portion of the wave is absorbed. This change in the ultrasonic waves registers the position of the touch event and sends this information to the iPhone's screen for processing."In short, the touch screen panel is coated with this special material that conducts a continuous electrical current. Since the human body also stores electrons, as the company explains, it therefore also exhibits capacitance.Ivyskin, based in San Jose, CA, provides polysilicon accessories for Apple's iPhone, iPod, and Macs, which basically designs, manufactures and delivers useful and fun solutions for digital entertainment and personal computing to people in the Americas, Europe, and Asia.The company makes sure that potential buyers know that the Xylo Touch-Thru (T2) is build with German materials. Apple, just so you know, also brings its touchscreens from Germany.Xylo Touch-Thru (T2) costs \$34.99.
