The "Pirates of the Caribbean" star would be delighted to be the next to portray Audrey Hepburn in a new biopic on the screen legend. The 20-year-old British actress told Sky that she has talked with the producers in charge of a project about the life of "Breakfast at Tiffany's" star, Audrey Hepburn. "I have been spoken to with regards to the role of Hepburn", Keira said. "It's intriguing as the film goes behind the lady we all knew so well but I am unsure, as such an icon is always hard to find as an actress", the actress added. "I would love to play her but it's all early days as yet", she concluded. Meanwhile, she is filming for "Pirates of the Caribbean 2 and 3, and will be seen next on "Domino", which will be released at the beginning of October.
