[Kenwood MP3 Player, with a 2.2 inch Display](#)

HD20-GA7

Kenwood will launch on the European market its first MP3 Player with a 20GB hard-drive; the device also has a color 2.2 inch (5.6 cm) display. These are not the only attractions of the Kenwood HD20-GA7 model, which also includes an equalizer based on the "New Clear Digital Receiver" technology, whose task is to optimize the low and medium frequencies. The QVGA 2.2 inch display can be used not only to display ID3 tags, but also for images and text. The device is connected to the PC via the USB 2.0 port and the MP3 player is fitted with a Li-Ion battery which ensures 24 hours of operating time. HD20-GA7 supports MP3, WMA and WAV. Weighing 140 grams, measuring 104 x 61 x 176 mm and have a price of around 350 Euros, Kenwood HD20-GA7 is due for launch in September. It's highly unlikely that among your favorite applications, there isn't an IM client. There's a broad offer, and even Google has entered the market. This week, Softpedia News [is inviting you to choose your favorite IM client.](#)
