Liptunes Mp3 Player  
Generationmp3

## [Ladies, Liptunes Player Moistures Lips, Pumps Out Cool Bites!](#)

*The Bratz player will hit the market soon*

Cosmetics and music are two of my greatest passions, so it comes only natural to combine them. Therefore, I have to say the fellows at Bratz have done an excellent job when creating this. By 'this', I mean this great looking MP3 player, which targets all the ladies, by revealing a lipstick design, just like the ones we use when doing our make-up. Regarding its design, if you see one of those, you could easily mistake it for a regular fire-red lip gloss, but if you try it, you'll see it literally puts the music on your lips, as it can double itself as an mp3 portable player. When it comes to its capabilities, the Bratz Liptunes Mp3 player can deal with both MP3 and WMA file formats. As expected, its memory is nothing to boast about, as 512 MB of memory capacity is never enough. When sucking the audio media content from your PC, the device uses USB file transfer interface, so common among the players of its kind. Besides that, it comes packed with an LCD monochrome screen display, which allows the users to see info on the content it plays. It also supports simple plug and play operation, and comes packed with a CD ROM for music management software. There is also an electronic volume control, allowing the users to manually adjust the proper volume level. Behind the iconic Bratz Lipstick design, there is a rather well-known company on the market, namely MGAE, which has a wide array of products of this kind in its portfolio, all of them based on awkward design lines. The Mp3 comes with a belt clip attachment integrated in its package, although wearing it on a neck strap wouldn't look so trendy after all. Sadly, there is no price tag out yet, and no availability info. We are just a few, but there are many of you, Softpedia users, out there. That's why we thought it would be a good idea to create an email address for you to help us a little in finding gadgets we missed. Interesting links are bound to be posted with recognition going mainly to those who submit. The address is .
