[Lego Star Wars 2: The Original Trilogy Cheats and Hints \(PC\)](#)

Studs, all characters, plus other cheats and hints

Lego Star Wars: The Original Trilogy was a mandatory sequel to one of the best action games to come from the Star Wars franchise. Now, at the second edition, the game had to be twice as fun and twice as entertaining. With a definite support from Nvidia, the game looks and feels very good and the gameplay is a lot more natural on the PC. The slightly increased difficulty has raised some eyebrows here and there, but if you're not used to wait and retry over and over again to kill the emperor and any other bosses, there are some things you can do about it.

CHEATS Enter one of the following codes at the Mos Eisley cantina. **Codes**
10 studs - 4PR28U 500,000 studs - HGIGHF All characters and ships - UDLRAB Obi Wan's ghost - BEN917 All clothing in character editor - 867539 All Extras - ABACAB All weapons in character editor - BIGGUN

GAMEPLAY HINTS

Easy studs
1. Select the Escape From Echo Base level. Choose any blaster character and Gonk droid. At the part where you see a square of silver studs, with the first grapple hook press A. Build the computer thing and go through to the next room. Change to the Gonk droid when you start sliding down the hill and go back into the room you just came from. You should find 14,000 studs. You can repeat this as many times as desired.
2. Go to Betrayal Over Bespin in Free Play mode. Go to the brown door that requires C-3PO to open. Go down the hallway then turn left at the triangular mound. In the corner will be a large door. Go down that hallway, then go to the door in front of you. Go down the last room and fix the tables. Next, go to the other room down the other hallway and follow that hallway. Destroy all enemies. Use the Force to open the other large door in that room. Go in that door. Go back to the room with the tables. The coins will respawn every time you go to that large door and go back. You can do this stud trick as many times as desired.

Pass through doors in ship levels Use a Probe droid in ship levels to pass through the doors you cannot seem to get in. You should be able to go through if you go in on the left or right side of the door.
