[Machine Head Cheats and Passwords \(PSX\)](#)

Ammunition refill, restore energy, level select and instant access to all stages

Seen through the eyes of **Dr Kimberly Stride**, Blam! gives you the ride of your life through fifteen **adrenaline**-pumping stages of state-of-the-art 3D blast-'em-up action. The **360** degree undulating terrain and tunnel systems feature hordes of mutated 3D polygonal enemies that you'll have to blast away with a lethal combination of ace piloting and aggressive shooting. A unique cyberspace feature enables the game map to be changed in real-time, allowing you to complete strategic objectives vital to the completion of your mission. Eye-popping FMV and comic strip cut-scenes link sections of the game together in an insane B-movie melodrama storyline and you'll be begging for mercy as you face the Machine head in the mother of all showdowns. Now try these cheats below and see if you can get to the geek a little faster to blow his head off so we don't have to listen to his annoying voice anymore. **CHEATS**
Ammunition refill: Press Circle(4), L1, Circle, L1(2), Circle, L1(2), Circle, L1(4)
Restore energy: Press Circle, L1(3), Circle, L1, Circle(2), L1, Circle(3), L1(5), Circle(2), L1
