[Mega Man Battle Network 5: Double Team Unlockables Part II \(DS\)](#)

The complete list of things you can unlock while playing

Team play is crucial when it comes to Mega Man Battle Network 5: Double Team, the game that allows you to use characters from the Battle Network 4 series and go on a liberating mission like no other. Of course, the Navi is not the easiest thing anybody could ever experience, so we have prepared a list of unlockables that will really help you.

UNLOCKABLES

Double attacks Go into full syncro and switch to the Navi indicated below and you should get the following.

TEAM COLONEL

Colonel- BR Rush Colonel appears next to you and throws his cape. If his cape covers someone, then Mega Man and Colonel should move to the front of the virus or Boss. Then, Colonel will slash and Mega Man will shoot.

Knightman- B Shoot Knightman appears next to Mega Man, jumps up, then hits the ground. Rocks will come down and Mega Man will shoot them towards the enemy. If this is done in the middle row, then you will hit everything.

Numberman- K Bomb Numberman will appear next to Mega Man. They will both throw mini-bombs in the air and huge blocks will fall down.

TEAM PROTOMAN

Protoman- D Hero Protoman will appear next to Mega Man and they will both charge. Then, Mega Man will shoot in the enemy area, while Protoman will slash in the same area.

Searchman- C- Scope Searchman will appear next to Mega Man. Targets will appear in the enemy area. Press A to stop the targets. If done correctly, you should have damaged the enemy.

Napalmman- D Vulcan Napalmman will appear next to Mega Man and use his machine gun. Mega Man will use a Super Vulcan. This will only work if the enemy is on the same row as you are.
