[Mega Man Star Force: Pegasus Passwords \(DS\)](#)

The full list of cards you can get

Mega Man Star Force is an action RPG much in the same vein as Battle Network. It is rendered in an isometric style (sprites, views, etc.) during field gameplay, but its battle system is three-dimensional, with the battles being viewed from behind Mega Man and movement restricted to only left and right. Since enemies have a much larger playing field, battle evasion seems limited, but the player is given a choice of techniques like shielding and homing attacks to keep battles balanced. Mega Man's life is a simple "Hit point" (HP) numerical system. When he takes damage, the number lowers, and when it reaches "zero," the game is over. HP can be recovered in a number of ways, both in and out of battle.
