[Monster Hunter 2 Unlockables \(PS2\)](#)

Gallery monster intro movies

MH2 is a full-blown sequel to the creature hunting game (after the expansion pack, [Monster Hunter G](#)), this new title includes a number of new gameplay systems. Along with the various species of monsters returning from the first Monster Hunter, Monster Hunter 2 contains many new monsters, such as the metallic wind dragon Kusharudaora, the lion-headed dragon Teo Teskator and his female counterpart Nana Teskatori, the primates Dodobrando and Babakonga and the chameleon-like dragon Oonazuchi, just to name a few. With new [monsters](#) also comes the prospect of new weapons and new armor. This time you can also add gems to your weapon and your armor, to improve your skills, it makes the game easier to play and it's easier to beat the monsters in the game, even if it's not that necessary to use Gems but it does still help a little. This way you can also get your own and individual weapon or piece of armor. **Unlockables****Gallery area movies.**The area movies are unlocked by doing your first quest at a specific area.
