[NASCAR 09 - Achievements \(Xbox 360\)](#)

The future of racing is here

NASCAR 09 is the natural evolution of racing and, with the new Paint Booth features, Nascar fans can take personalization to the next level by giving users the ability to customize their car from the start to finish. For the first time in franchise history, customization templates are available online, so players can get to admire their friends' designed cars online. The connectivity also allows players to download car templates from easports and import them into editing programs, such as Photoshop, expanding the design options. NASCAR 09 will be available on PLAYSTATION 3 and Xbox 360 and ships on June 10. The game features highly adaptable gameplay, and with the help of four-time NASCAR Sprint Cup Champion Jeff Gordon, you will get to the top in no time.
