Learn a new move and get Reebok Edge jerseys

EA SPORTS - pioneers in the Golden Age of hockey videogames - continues to lead the charge in the next gen era with advancements in AI intelligence, innovative controls, online depth and an unmatched level of authenticity to the sport. The revolutionary Skill Stick System evolves in NHL 08 and delivers an unparalleled level of control. An all-new **deking** system enables you to move the puck off your stick, to walk around a defender and give you space in front to challenge the goalie. Enhanced analog speed control and a new skating engine give you the precision and fluidity to play like you would on the ice. NHL 08 will feature an exclusive AHL license for the first time, with all 29 teams from the primary development league for the NHL fully playable in game. **CHEATS****Reebok Edge jerseys** Enter h3oyxpwksf8ibcgt as a code. **GAMEPLAY HINTS****Spin Deke**To perform the Spin Deke, hold L2 and rotate the Right Analog-stick a half circle either from left to right or vice versa.**Stick Flex**When creating or editing a player, make sure to consider his strength (size and weight) when choosing the Stick Flex setting. Bigger, stronger players can deliver a more powerful shot with a stiffer flex. Smaller players however do not have the strength to utilize the stiffer flex settings. Make sure to make the necessary adjustments by providing them with a more flexible stick. **Overcoming the salary cap**If you have created a six player squad of 99 ratings, but cannot fit them to a team due to salary cap concerns, even in a custom team, put them in an international or all-star team. These teams are not restricted to salary caps. Another way to cheat on the salary cap is to use an AHL team. They also have the new RBK Edge jerseys.**Getting good players**If you want a line with all one All-star (for example, Crosby), release him from his NHL team, his All-star team (West, East), and his World All-star team (North American or World). Then, sign him to your team. Here's a trailer:
