[New Sniper Elite Trailer Opens the Tides of War](#)

From Namco

Namco Hometek released a new trailer for its upcoming military action shooter title, "Sniper Elite™." A unique hybrid that straddles first-person and third-person perspectives, this latest Namco offering simulates the danger and peril of living as an undercover sniper in World War II Germany with pitch perfect accuracy. Scheduled to ship this September, "Sniper Elite" will be available on the PlayStation 2 computer entertainment system, Xbox video game system and PC. The future of post-World War II America is in the player's hands as "Sniper Elite" sets the stage in war-torn Berlin. As battles rage in every city block, the gamer must assume the role of an American sniper and infiltrate enemy lines to steal nuclear technology from the German army. With 28 unique missions, "Sniper Elite" promises the opportunity to hone elite sniping skills, using multiple conditions like gravity, elevation, wind speed, heart rate, and more as key variables. Gamers can take out strategic obstacles like machine gun nests, guard posts, and sentries as they freely explore the smoldering city steeped with enemies, or engage in multiplayer games of cat and mouse with players worldwide.
